PREFACE.

The CAMBRIDGE DIRECTORY for 1896, the 45th in the series, has been compiled with all the care that experience could suggest and ample facilities supply. It has been our aim to provide a directory creditable to the University City, and as thoroughly useful and trustworthy as could be desired. The business men of Cambridge realize the value of our pages for advertising purposes, knowing that no such permanency can be secured in ephemeral publications as is offered in a volume of such wide and general consultation as a city directory. Every live business man has need of the directory, and strangers gain a deal of information from a well compiled volume of this kind. A well ordered, well printed and complete directory reflects credit upon the city it represents, and that is what the publishers mean to furnish. The business and general public can help us to fulfill this purpose and benefit themselves by a generous patronage.

The revised census of Massachusetts for 1895 will be found at the end of the book, from which it will be seen that the city has a population of 81,643, an increase of 11,615 in five years, affording a substantial proof of the progressive character of the city. Good government, the best of schools and a variety of industrial activities, combine to make Cambridge attractive to home seekers.

With thanks to our patrons, and assurances that the CAMBRIDGE DIRECTORY will be kept up to the demands of the times, we remain

Respectfully,

W. A. GREENOUGH & CO.

SAVE YOUR TEETH!

Without good teeth there cannot be thorough ***mastication.***

Without thorough mastication there cannot be perfect ***digestion.***

Without perfect digestion there cannot be ***assimilation.***

Without proper assimilation there cannot be ***nutrition.***

Without nutrition there cannot be ***health.***

Without health, what is life?

They may all be saved by scientific treatment and built up with gold or other material into their original natural forms and restored to usefulness.

Gold Fillings inserted by ***hand pressure,*** no pounding, or mallet of any kind used.

Teeth filled with gold permanently resist the inroad of decay, and when these fillings are inserted artistically, ***the tooth will not turn dark*** and very rarely is the smallest portion visible.

We can cure teeth with abscesses, thus ***avoiding*** the necessity of extraction.

We can restore to usefulness, by all the known practical methods, diseased teefh and roots, even when decayed beyond being filled.

CROWN AND BRIDGE-WORK

(OR ARTIFICIAL TEETH WITHOUT PLATES)

Is the most advanced method of restoring diseased teeth and roots, even though decayed beyond filling, — securing a sweet mouth, improved health and perfect comfort. ∴ ∴ ∴ ∴ ∴

5-5 Signal for no School
12-12 Military Call

INSTRUCTIONS TO KEY HOLDERS.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go. Each box contains a small bell which, if heard before you pull, indicates that an alarm has been previously given, and by listening at the box, you will learn the number of the box from which the alarm was given, but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box, so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed being placed over each box giving the requisite information.

INSTRUCTIONS TO FIREMEN.

First alarm will be given by striking *three* or more rounds.

Second alarm will be given by repeating the first.

Third alarm will be given by striking *three blows twice* on the gongs and bells.

General alarm will be given by striking *three blows three times.*

In cases where hook and ladder companies only are wanted, the call will be given by *five blows.*

Companies not required to respond to first or second alarms will be notified of the extinguishment of the fire by *two blows* on the gongs, that their services will not be needed and that orders have been given to "make up." Should an alarm be given from any box while a portion of the department is engaged at a fire, the apparatus not in service will respond.
